

WORDFAST

WORDFAST ANYWHERE

The world's first cloud-based translation memory tool for translation professionals.

Any browser.
Any platform.
Any device.
Anytime.
Anywhere.

Wordfast Anywhere is the world's most advanced web-based translation memory tool for translation professionals. With over two decades of experience providing the most affordable and powerful TM technology for any platform, Wordfast offers users all the benefits they have come to expect from our products, now in a completely secure, online translation environment.

BENEFITS

ACCESS YOUR DATA—ANYTIME, ANYWHERE

Wordfast Anywhere frees translators from their desktop applications and allows them to work on translation projects from anywhere they have a web browser. By storing your TMs, glossaries and files in a secure workspace on Wordfast's centralized server, you can access your data from anywhere—even when you are away from your home or office. Data is backed up frequently and automatically so you never need to worry about losing your work.

NO SOFTWARE INSTALLATION OR UPDATES

With Wordfast Anywhere, there is no need to download or install any software. Simply sign in at www.wordfast.com to deploy Wordfast Anywhere and begin translating within minutes. You will never wonder if you are running the latest version, and you will never need to perform any updates. Users are guaranteed that they are accessing the most up-to-date version each time they log on.

COMPLETE PRIVACY AND CONFIDENTIALITY

Wordfast Anywhere offers each user a private, password-protected workspace on our centralized server. Wordfast guarantees complete and permanent privacy of all data entrusted to our server, including source content, translated content, TM assets and personal information. Your data is

WORDFAST

SYSTEM REQUIREMENTS

To register for a trial account and begin using Wordfast Anywhere today, visit www.wordfast.com/buy

never shared with any third party unless you specifically invite them. Once you delete a file from your private workspace, it is permanently and irrevocably deleted from the Wordfast Anywhere server.

NO IT COSTS OR MAINTENANCE

Purchasing hardware, storage space and the staff to support it can sometimes be cost prohibitive. Because Wordfast stores your data in a secure workspace on Wordfast's centralized server, there is no IT infrastructure to manage or maintain.

INSTANT COLLABORATION

Wordfast Anywhere makes collaborating with colleagues much simpler and more efficient than traditional desktop systems. There is no need to export and import files from individual user systems and no need to email files back and forth or upload them to FTP sites—users can share and update files right inside Wordfast Anywhere's online environment with a few simple clicks. Users who are collaborating will have up-to-the-minute access to each other's translated content, reducing the total new word count, increasing translation efficiency and maximizing consistency.

CROSS-PLATFORM COMPATIBILITY

Because Wordfast Anywhere is accessed through your web browser, it can run on any web-enabled device regardless of platform. This includes Windows, Mac and Linux operating systems as well as tablets such as the iPad, and leading smartphone operating systems including iPhone, Windows Phone and Android.

USER-FRIENDLY

Like all Wordfast products, Wordfast Anywhere boasts an intuitive, user-friendly interface, so translators experience an accelerated learning curve and can begin working on translation projects in no time.

PROJECT MANAGEMENT

Wordfast Anywhere now offers translation management features to help you meet the expanding needs of your customers, including job assignments and purchase orders for vendors. Take your translation business to the next level with advanced project management.
